3 Purposes of data processing

Management of supervisory duties and other official duties laid down in legislation.
The data may be used for research in radiation and nuclear safety.

4 Legal basis for data processing

Compliance with a legal obligation, the performance of a task carried out in the public interest or the exercise of official authority vested in the controller:

- e.g. the Act on the Radiation and Nuclear Safety Authority, Radiation Act, Nuclear Energy Act, Act on the Transport of Dangerous Goods, Act on Market Surveillance of Certain Products

Consent:

- contact details of radiation safety experts on the STUK website
- contact details of operators offering radon mitigation measures on STUK's website

5 Processed personal data or categories of personal data

Relevant data, depending on the context:

- name, identifying data
- gender
- nationality

19.2.2026

- contact details
- information on the organisation
- data relating to the appointment to the position
- presence during an inspection
- data concerning radiation exposure
- other connection to a permit or supervision matter

In addition, online identifiers and ICT management and monitoring data are processed in connection with electronic services.

6 Where do the personal data come from?

Data subjects, operators, licence holders, employers, STUK's supervisory activities and other authorities.

7 Recipients or groups of recipients of personal data

The data are processed using the information systems of service providers.

The data may be disclosed to other authorities for the performance of supervisory tasks.

In some situations, STUK may use the support of external experts in the performance of its supervisory task.

8 Will data be transferred outside the EU/EEA and to international organisations, or will these parties have access to data?

The data may be processed in cloud computing services, in which case data may be transferred outside the EU or EEA using an appropriate data transfer mechanism. (Commission Implementing Decision (EU) 2023/1795 on the adequate level of protection of personal data under the EU-US Data Privacy Framework)

9 Disclosure and publicity of personal data

Upon request, STUK may disclose personal data in accordance with the Act on the Openness of Government Activities (621/1999).

19.2.2026

10 Planned data retention periods for data groups

In accordance with the law and the information management plan.

The data of employees are stored in the dose register for as long as the employee works with radiation and after this until the person turns, or would have turned, 75, but in any case for at least 30 years after the end of work involving exposure to radiation. The Radiation and Nuclear Safety Authority may store data for research purposes related to ensuring radiation safety for a longer period of time.

11 Realisation of the rights of the data subject

11.1 Right of access

The data subject has the right to obtain from the controller confirmation as to whether or not personal data concerning them are being processed, and, where that is the case, access to the personal data and information about the processing of the personal data.

11.2 Right to rectification

The data subject has the right to obtain from the controller without undue delay the rectification of inaccurate personal data concerning them.

11.3 Right to erasure

The data subject has the right to obtain from the controller the erasure of personal data, for example, when

- consent is withdrawn and there is no other legal basis for processing the data
- the data are no longer necessary in relation to the purposes for which they were collected/processed
- the processing is unlawful

11.4 Right to restriction of processing

The data subject has the right to obtain from the controller restriction of processing, for example, if the accuracy of the personal data is contested by the data subject or the processing of personal data is unlawful.

19.2.2026

11.5 Right to object

The data subject has the right to object to the processing of their personal data for direct marketing purposes.

The data subject has the right to object, on grounds relating to their personal, particular situation, to the processing of their personal data where the processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller or a third party.

However, the data may be processed for scientific or historical research purposes or for statistical purposes, if necessary for the performance of a task carried out in the public interest.

11.6 Right to data portability

The data subject has the right to transmit the personal data, which they have provided to a controller, to another controller, where the processing is based on consent or the processing is carried out by automated means.

The data may be transmitted directly from one controller to another, where technically feasible.

11.7 How do I submit a request for reviewing my personal data to STUK?

You can submit the request for your personal data, for example, using the Suomi.fi online service or by mail to the Radiation and Nuclear Safety Authority, Jokiniemenkuja 1, 01370 Vantaa.

We will respond to you as soon as possible, but no later than within one month.

12 Is the provision of personal data mandatory??

The performance of official duties laid down in the Act is not possible without the processing of personal data. The services requiring consent may not be used without the processing of personal data.

13 Withdrawal of consent

If the processing is based on consent, the data subject has the right to withdraw their consent at any time. Withdrawal of consent does not affect the lawfulness of the processing carried out on the basis of consent before the withdrawal.

19.2.2026

14 Information on profiling or automated decision-making

Not used

15 Remedies

If you find that the processing of personal data is unlawful or insecure, please contact us.

You may also refer the matter to the Data Protection Ombudsman.
